

## Alfapur (PU)

Alfapur is mono layered non reinforced polyurethane (PU or PUR) tube with excellent mechanical characteristics. This tube is perfect for situations where the combination of vibration and flexing is needed.

Temperature: -20°C to +80°C

### Main characteristics:

- small bending radius
- kink resistant
- abrasion resistant
- low friction and low loss of charges
- very good shock resistance

**Coil lengths:** 25m

**Colours:** Naturel, blue, black, yellow\*, green\*, red\*

\* upon demand

### Applications

Main use is pneumatic applications, but also for fluid transfer, silicon injection, agricultural spraying.
